Mobile: React Native, Expo, NativeWind, Swift and Kotlin integrations, EAS

Languages & APIs: TypeScript, JavaScript, REST APIs

Testing: Cypress, Playwright, Jest, React Testing Library

Practices & tools: Git, Agile/Scrum, accessibility (WCAG), code reviews, mentoring

Additional experience: Node.js, Express, NestJS, SQL, Oracle, Java/J2EE

PROFESSIONAL EXPERIENCE

Freelance Front-End & Mobile Engineer

Self-employed | Sep 2025 - Sep 2026

Worked as a Freelance Front-End & Mobile Engineer, contributing to web and mobile application development within a multidisciplinary engineering team.

- Developed and maintained web applications using React and TypeScript, contributing to front-end architecture, technical decisions and implementation.
- Worked on cross-platform mobile development using React Native, Expo and TypeScript.
- Collaborated with back-end developers and other engineers to deliver reliable, maintainable solutions.
- Contributed to code quality, automated testing and continuous improvement of development workflows.
- Took ownership of assigned front-end responsibilities, from technical implementation through testing and delivery.

Technologies: React, React Native, Expo, TypeScript, JavaScript.

PROFESSIONAL EXPERIENCE (CONTINUED)

Front-End Engineer

One Beyond | Jun 2021 - Sep 2025 | Málaga, Spain

- Designed and implemented scalable front-end solutions with Angular, React and Next.js, supporting enterprise requirements and evolving product needs.
- Contributed to a white-label messaging platform with customizable branding for deployment across multiple clients.
- Mentored developers through code reviews, pair programming and career guidance, supporting technical development and internal progression.
- Developed and maintained automated tests with Cypress, Playwright, Jest and React Testing Library, collaborating with UX/UI, QA and back-end teams in Agile environments.

Front-End Developer

The Cocktail | Dec 2018 - Jun 2021 | Málaga, Spain

- Built and optimized enterprise web applications using React, Vue.js, Redux and Vuex.
- Implemented accessible, responsive interfaces aligned with design guidelines and integrated REST APIs.
- Contributed to sprint planning, estimation and retrospectives within Agile Scrum teams.

Front-End Developer

ONCE Group | Aug 2017 - Dec 2018 | Málaga, Spain

- Developed accessible applications aligned with WCAG standards, supporting users with visual and other disabilities.
- Built responsive interfaces with Angular 5, Bootstrap and SCSS; integrated REST APIs in collaboration with Node.js and Express back-end developers.
- Participated in QA cycles to validate accessibility and application performance.

Back-End Developer

GlobalTMS | 2014 - 2016 | Madrid, Spain

- Developed features and resolved defects in Java/J2EE applications using Oracle, WebSphere Application Server, Struts, Spring and Hibernate.
- Managed Oracle and SQL databases, supporting data integrity, performance and availability.
